# Quick-Start-Guide TQMxE41S

x86 architecture

❶ CONNECT EXTERNAL DISPLAY

Use DisplayPort connector X4 on the MB-SMARC-3 to connect an external display (e.g. monitor).

❷ CONNECT KEYBOARD AND MOUSE

Connect a keyboard and mouse to any USB port available on Connector X6 or X7 so that you are able to navigate in theUEFI/BIOS menu or in the OS.

❸ SUPPLY THE STKxE40S WITH POWER

Double-check the mains voltage required for the included power supply (100V…240V), then connect it to connector X9 on the MB-SMARC-3 using the included power adapter cable.

Caution when using a different power supply!
The Starterkit requires a regulated supply voltage of 12 V!

❹ ACCESSING THE UEFI/BIOS

In order to get into the UEFI/BIOS menu press "Esc" on the connected keyboard as soon as the "TQ" corporate logo appears.
